RISO SF Series – *SPEED FORWARD to Better Performance*

RISO offers outstanding productivity through high speed and low cost.

Employed in over 180 countries and regions, RISO has been successfully meeting all user needs by constantly listening to the feedback from our customers in order to continually improve our products. The SF series is an important milestone and a masterpiece of our ceaseless innovation. With the fastest speed in its class plus the superior operability and print quality, the SF series ushers you into a higher dimension of printing.

High Speed Printing @ 150 ppm

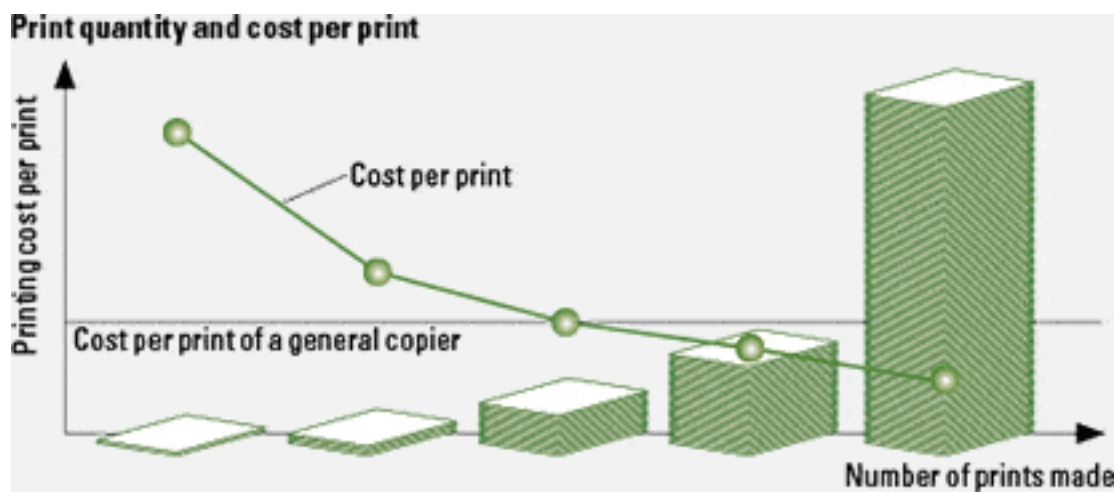

1000 pages can be printed in less than 8 minutes. This surprisingly high speed will efficiently support your high volume print requirements.

25 minutes
B&W Photocopiers/Laser Printers (40ppm)

SF 5350

Overwhelmingly Economical Print Costs

The SF series makes prints from a master. As a result, the more pages generated from each master the lower the cost per print, making it highly economical for medium- to high-volume printing.

Enhanced Features for Clearer Output

The newly designed scanner attains smooth tonal gradation even with photo images.

- Reduced blown-out highlights via equalized dot description

Improved image-processing function decreases image deterioration through improved image processing, delivering clearer output.

- Minimizes blocked-up shadows through enhanced gamma correction
- Sharp outlines with contour enhancement achieved

Heavy Duty Paper Feed Tray

The paper trays have a capacity of 1000 sheets* for both feeding and receiving, which ensures uninterrupted printing over a longer period.

*When using the following weight of paper: 64 gsm to 80 gsm

Numerous Input Options

The SF series offers various ways of printing, depending on your specific requirements.

- Standard equipment of PC-I/F
- Direct printing from a USB flash drive & thru Scanning the documents

Various Color Options

21 standard colors plus 50 custom colors are available. A wide range of printing colors can meet the needs of a variety of print jobs.

Ease of Operation

Redesigned control panel

New, easy-to-use control panel provides intuitive operation.

Easy-to-use LCD panel

The information on the 128 × 64 dot LCD panel can be easily viewed, and it also shows the residual capacity of supplies to prevent an out-of-stock situation occurring.

Caring for the Environment

Eco-friendly

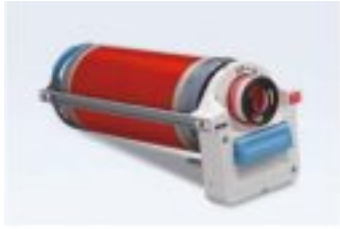

The SF series consumes 1/10th the energy, compared with energy star guidelines.

- ENERGY STAR ® qualified and RoHS certified
- Complies with the ErP directive in Europe

Rice bran oil ink

The rice bran oil ink contributes to environment sustainability. Rice bran, which would be otherwise wasted, is a raw material with no VOCs, so after the oil is extracted for the ink. It can subsequently be used as fertilizer or animal feed.
